### WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

REQUEST TO RE-CHECK NON-RECEIPT OF PAPER

Mail Stop Petition  
Commissioner of Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

The present unintentionally abandoned application is timely petitioned to be revived by the attached form PTO/SB/64.

Before reviving the application, and collecting the fee, the Petitions Examiner is, however, requested to make, by calling such group in the PTO as may prove pertinent if necessary, one further inquiry as to whether the paper not received - a response to a requirement for restriction - was in actual fact timely received in the PTO.

Applicants' undersigned representative believes that the paper attached hereto as EXHIBIT A was timely sent to the PTO on the indicated date of November 22, 2005. However, Applicant cannot now prove this to the standards of the PTO, which evidently require a certificate of express mailing in support of any Petition that the document WAS timely mailed. Applicant's response of 22 November 2005 was not so express mailed, but was mailed only by normal post.

Moreover, this November 22, 2005 document is flawed, Specifically, and although all other information is correct, the TITLE of the application is wrongly stated. (Applicant's undersigned representative's e-mail address changed in the interim.)

This Applicants' error in the TITLE of his application would not normally seem to make that the document would fail to become associated with the correct application. Applicant notes that the subject application serial number 10/788,734, and also another continuation-in-part application of Applicant no. 10/810,993, both show on the PAIR system to be within electronic form, with Applicant's EXHIBIT A November response within neither.

Applicant's undersigned representative does not know whether that is "the end of the matter", and, forbearing that the attached November paper is evidently not where it should be, it must be assumed not to have been received and the NOTICE OF ABANDONMENT properly sent, OR (2) there might be some "file unlocated" correspondence in the Examining Group 2883 in which Applicants' paper might be present.

Should any such possible location exist (as might besuit the irregularity in the title of Applicant's November document), the Petitions Examiner is asked to check this location, if possible, before entering the accompanying Petition for Revival of an Application Abandoned Unintentionally and collecting the fee therefore. Thank you.

Serial No.: 10/778,724

Applicant's undersigned attorney is at the Petition Examiner's disposal should the Petitions Examiner wish to discuss any matter which might facilitate determination on this request.

Sincerely yours,
